

Health benefits were complex, but not anymore.

As an employer, we understand the challenges you face with providing healthcare benefits to your employees. From coordinating open enrollment and administering COBRA, to selecting health plans and managing unavoidable rate increases—health benefits today can be overwhelming.

Beyond these challenges, we've found ourselves asking one simple question: **Why do employers choose the plans for their employees?** Selecting health insurance is an incredibly personal and important decision that is not made by the person it benefits. **What if there was a better way?**

Introducing YourWay Frontier: Simplified benefits with two easy steps.

1. You put money into your employees' benefit accounts.
2. Your employees use that money to buy their own health insurance.

OneBridge Benefits administers everything and **guides your employees to success.**

Great for employers.

Frontier still allows you to provide a rich health benefit offering to your employees while reducing your responsibility to one thing: Placing tax-free funds into employees' benefit accounts. Your organization can now focus more time on what it does best: taking care of your customers.

Perfect for employees.

Frontier enables your employees to use their pre-tax funds to purchase tailor-fit coverage that perfectly matches their healthcare needs. Even better, any unused funds are portable and can be used for future health expenses—providing a lifelong healthcare benefit.

Contact **Ben Indelicato**, the Frontier implementation specialist, to take the next step today in modernizing your coverage.
